Discussion

On April 17, 2024, the Securities and Exchange Commission (SEC) announced in Fee Rate Advisory #2 for Fiscal Year 2024 that, effective May 22, 2024, the Section 31 fee rate applicable to specified securities transactions on the exchanges and in the over-the-counter markets will increase from its current rate of \$8.00 per million dollars in transactions to a new rate of \$27.80 per million dollars in transactions. Until that date, the current rate of \$8.00 per million dollars will remain in effect.¹ The assessment on security futures transactions will remain unchanged at \$0.0042 for each round turn transaction.

Section 31 of the Exchange Act requires the SEC to annually adjust the fee rates applicable under Section 31 and, in some circumstances, to make a mid-year adjustment, after consultation with the Congressional Budget Office and the Office of Management and Budget.
